From Human-Human Joint Action to Human-Robot Joint Action

Contents

1.1   Joint Action Theory

What is Joint Action: sebanz06

1.1.1   What do we need to perform a Joint Action?

1.1.2   Commitment

1.1.3   Perception and prediction

1.1.4   Coordination

1.2   How to endow a robot with Joint Action abilities

1.2.1   Engagement and Intention recognition

1.2.2   Perspective taking and human mental states

1.2.3   Actions realization

1.2.4   High level decisions

1.2.5   Communication for Joint Action

1.3   A three level architecture

1.3.1   The three levels of Pacherie

1.3.2   A three level robotics architecture

+ related work on others robotics architecture
